- Heavy-duty, single-pin pull allows one-handed latch operation
- Versatile latching system installs tube-to-wood or tube-to-tube
- Fits 1½" - 1¾" tube sizes

Item No. WL

# Wrangler Latch Assembly Instructions

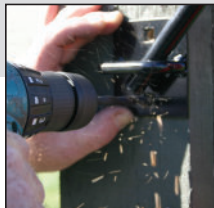

## STEP 1:

Place mounting cuffs on the top bar and the vertical bar. Fasten sleeves using two  $\frac{3}{8}$ " x 2- $\frac{3}{4}$ " carriage bolts and  $\frac{3}{8}$ " hex nuts provided.

## STEP 2:

If mounting latch to wooden post, place flat-back latch cane receiving sleeve into position. Drill pilot holes and fasten with the bolts provided.

## STEP 3:

If mounting latch to tube, place the latch cane in the receiving sleeve and position on tube. Center the catch on the latch cane in the closed position. Tighten the nut on the receiving sleeve.

### NOTE:

When the latch cane is extended, pull it back and twist. It will then hold itself in place and stay clear when the gate is open.
